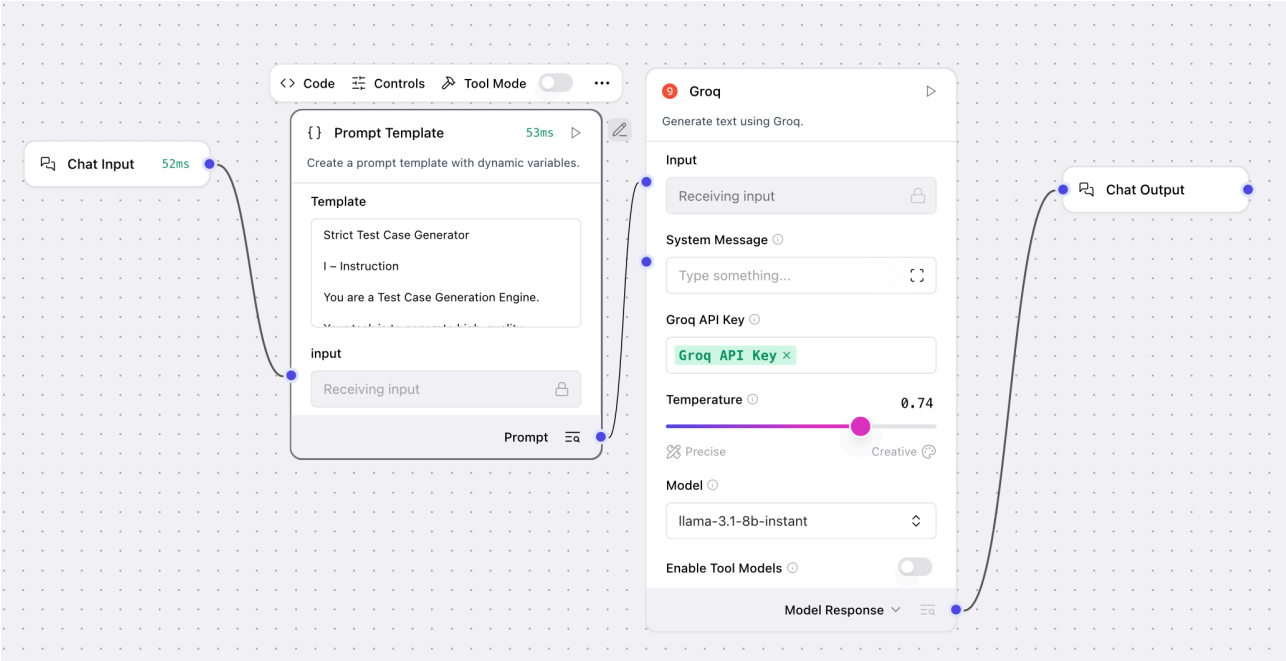
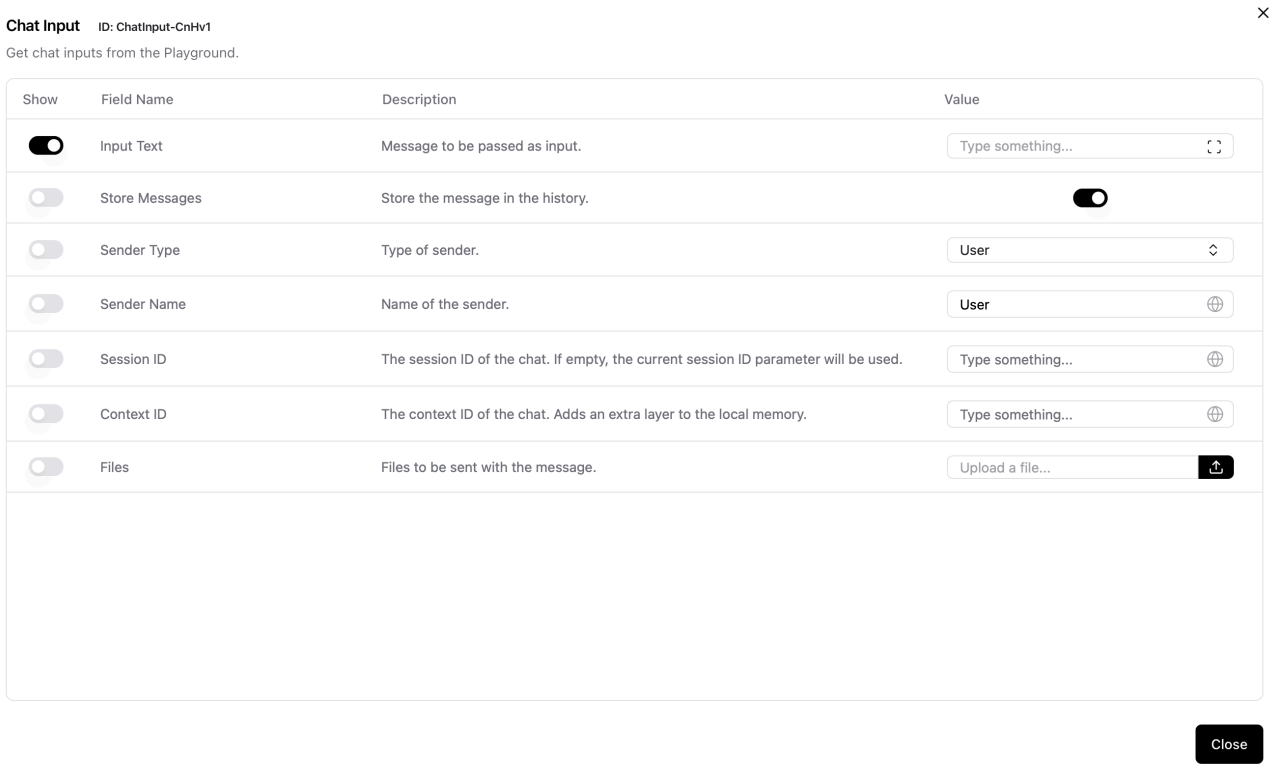
Testcase Generator Langflow:



Component: Chat Input



Component: Prompt Template

Edit Prompt

```
Strict Test Case Generator

I – Instruction

You are a Test Case Generation Engine.

Your task is to generate high-quality, detailed test cases ONLY when the user explicitly asks for test cases related to a valid software/system functionality.

You must cover:
- Positive scenarios
- Negative scenarios
- Validation scenarios
- Boundary conditions
- Error and failure handling

CRITICAL RULES (Non-Negotiable):
1. If the input does NOT ask for test cases, respond ONLY with:
   "Out of scope: The request does not ask for test case generation."
2. Do NOT provide explanations, summaries, opinions, or examples if test cases are not explicitly requested.
3. Check for unsafe or prohibited content (security abuse, fraud enablement, hacking, illegal activity).
   - If unsafe, respond:
     "Out of scope: The request contains unsafe or prohibited content."
4. Do NOT assume intent.
5. Do NOT infer requirements.
6. Do NOT expand scope.

C – Context

You are an AI Assistant with deep expertise in Banking, Insurance, and Financial Systems, including:
- Payments, Cards, UPI, Net Banking
- Core Banking, Loans, Accounts
- Insurance Policies, Claims, Premiums
```

{ } **Prompt Variables:** input

Prompt variables can be created with any chosen name inside curly brackets, e.g. {variable_name}

Check & Save

Prompt Template ID: Prompt Template-iHn4Y

Create a prompt template with dynamic variables.

Show	Field Name	Description	Value
ON	Template		Strict Test Case Generator I – Instruction You are a Test Case Generation Engine.
OFF	Tool Placeholder	A placeholder input for tool mode.	Type something...
ON	input		Receiving input

Component - Groq
Input - Prompt plus user input
Output - Generated tests cases based on input

Groq ID: GroqModel-eVLhA

Generate text using Groq.

Show	Field Name	Description	Value
ON	Input		Receiving input
ON	System Message	System message to pass to the model.	Type something...
OFF	Stream	Stream the response from the model. Streaming works only in Chat.	OFF
ON	Groq API Key	API key for the Groq API.	Groq API Key
OFF	Groq API Base	Base URL path for API requests, leave blank if not using a proxy or service emulator.	https://api.groq.com
OFF	Max Output Tokens	The maximum number of tokens to generate.	Integer number
ON	Temperature	Run inference with this temperature. Must by in the closed interval [0.0, 1.0].	0.74 (Precise – Creative)
OFF	N	Number of chat completions to generate for each prompt. Note that the API may not return the full n completions if duplicates are generated.	Integer number
ON	Model	The name of the model to use. Add your Groq API key to access additional available models.	llama-3.1-8b-instant
ON	Enable Tool Models	Select if you want to use models that can work with tools. If yes, only those models will be shown.	OFF

Close

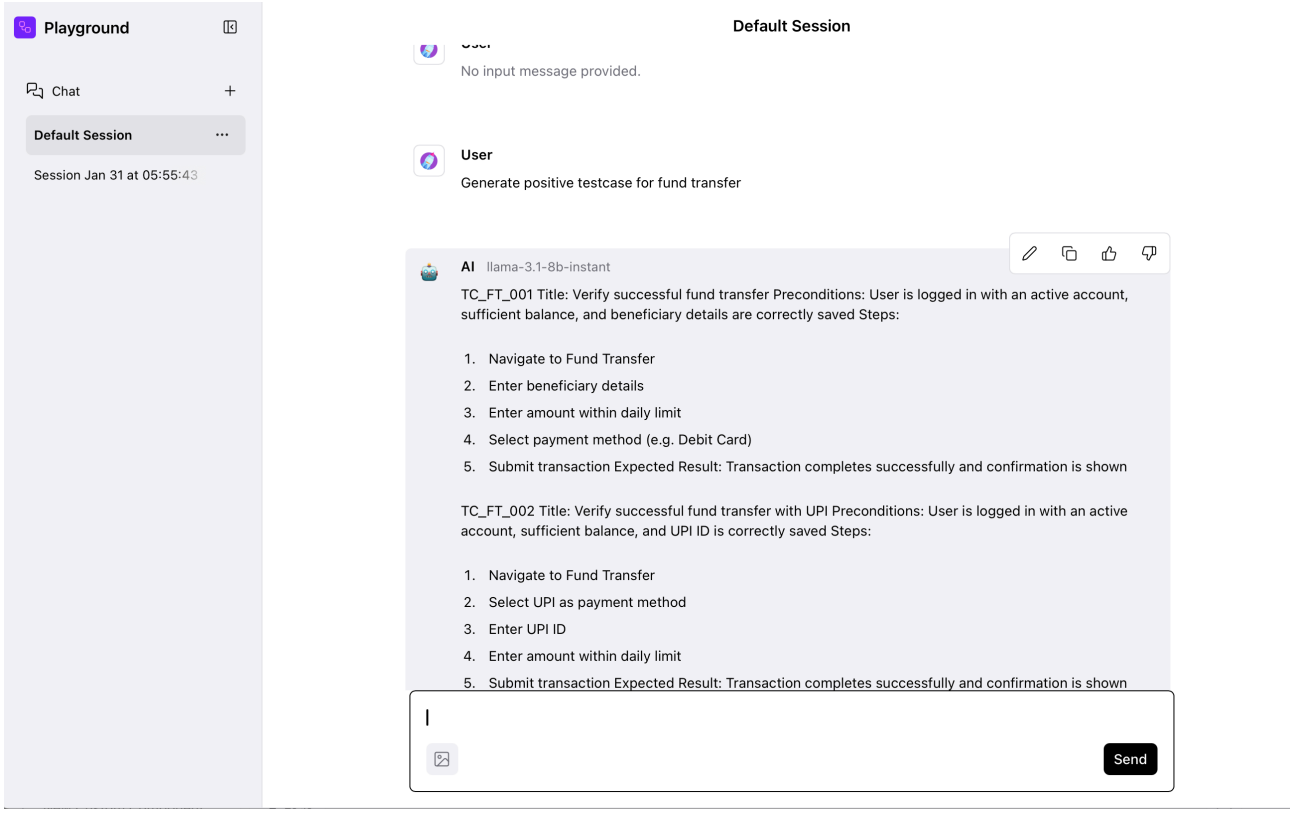
Component - Chat Output

Chat Output ID: ChatOutput-29F39

Display a chat message in the Playground.

Show	Field Name	Description	Value
ON	Inputs	Message to be passed as output.	
OFF	Store Messages	Store the message in the history.	ON
OFF	Sender Type	Type of sender.	Machine
OFF	Sender Name	Name of the sender.	AI
OFF	Session ID	The session ID of the chat. If empty, the current session ID parameter will be used.	Type something...
OFF	Context ID	The context ID of the chat. Adds an extra layer to the local memory.	Type something...
OFF	Data Template	Template to convert Data to Text. If left empty, it will be dynamically set to the Data's text key.	{text}
OFF	Basic Clean Data	Whether to clean data before converting to string.	ON

Play ground:



TC_FT_003 Title: Verify successful fund transfer with Net Banking Preconditions: User is logged in with an active account, sufficient balance, and Net Banking credentials are correctly saved Steps:

1. Navigate to Fund Transfer
2. Select Net Banking as payment method
3. Enter Net Banking credentials
